rates into the great Central South, are now in effect. Low round trip rates via the Queen & Crescent Route, twice each month, carry you through the far-famed Kentucky Blue Grass, and the highland country of East Tennessee, into the great rich valleys and hills of Alabama, Georgia, Mississippi, Louisiana.

Living is cheap in this warmer climate. Pastures ten months a year. Less clothing required. Land selling cheap.

Wouldn't it pay you to see if you can't make more money where the weather is less boisterous? You can go down at low rates. Stop-over enroute to examine lands, people and conditions. It will do you good to see a little of the country, and may prove the best thing you ever did in your life.

Conkey's Home Journal...

is one of the greatest successes in the publication world. It has acquired a circulation of over 100,000 in about two years because it is as good as most \$1.00 publications, and decidedly the best 50 cent monthly in the country.

It is a handsomely printed publication, the literary matter is of a high order, and each issue contains two or more selections of popular sheet music that would sell at a music store at from 50 cents to \$1.00.

Conkey's Home Journal...

is one of the best advertising mediums for articles that interest the women and are used in the homes. Every advertiser has the privilege of the yearly rate and can drop out at any time if it doesn't "pull."
