STORES

The wide vision cabooses from Paradise Car & Locomotive have sold well. We are on our 3rd order of 25 units. These will be available at the convention and are $75 each and decals are $7 per set. Be aware that if you drop the model it will most likely chip and break.

Sales through the company store were steady through the winter with 2 or 3 a week but have slowed down with the summer months.

We still have two different hooded sweat shirts to choose from and three different T shirts. We have stocked larger sizes. Do we want a new T-shirt for the 2026 convention? Or maybe a cap?

Train shows. Wane Zeman has been representing the society at train shows in Northern Indiana. There have now been any NMRA shows in central or southern Indiana of late. There is a big 2 day show in Indianapolis September 12 & 13 at the fair grounds - need workers! I am considering attending the L&N Convention the following weekend to sell wide vision cabooses is we have sufficient stock.

We are still selling THLs at French Lick Museum, Lawrence County Museum, Monroe County History Center and the Monon connection museum.
