**THL Report Board of Directors Meeting July 17th, 2026**

Both the 2027 Society Calendar and the August 2026 THL are complete and either have been or are ready for forwarding to the printer.

All editorial content for the November 2026 THL is on hand. Actually, some material has already been submitted to Todd at WRP for preliminary work up. The complete issue will be available to WRP early as is our normal policy.

The major features for each 2027 issue of THL have been tentatively identified, several of which are currently on hand.. Firm author commitments have been confirmed for those features not yet complete. As the 2027 publishing schedule progresses, there may still be a need for some smaller articles not currently planned.

As previously announced, the THL Editorial Staff does not intend to produce a 2028 Society Calendar.
